# SECRET SPY TOOL KIT

Dive into a world of espionage!

1

## CODE WHEEL

Here's how to make a message using your secret code wheel:

1. Pick one of the five different codes to use.
2. Turn the wheel so the arrow points to the letter you want to encode.
3. Read the coded letter from the window you chose in step 1.

## SPY SAFELY!

When playing spy games, you might run into a confusing situation with people who might be real spies. Many adults work for the other side, or believe in some of its ideas.

If you think someone works for the other side, you should tell two adults. In addition to your mother or father, you could tell your teacher or a police officer. Even your parents could work for the other side, which is why you must tell two adults.

## START A SPY CLUB

Get some of your friends together and start a spy club! With multiple spies, you can have a bunch of different roles, like:

- **Head Spy:** Makes final decisions for the club.
- **Intelligence Agent:** Stays alert and keeps an eye on enemies.
- **Gadget Guy:** Keeps track of your *Secret Spy Tool Kit* and other equipment you may need.
- **Code Expert:** Makes secret codes to communicate with other agents
